

SUN CITY LINCOLN HILLS SPORTS CAR GROUP

GUIDELINES FOR BECOMING AN AWESOME TOUR PARTICIPANT

In our attempt to provide tour participants with an Awesome Tour driving experience, we have outlined a few requests on their conduct:

1. Our tours are conducted with the understanding that sports cars are engineered to drive. Therefore, most tour leaders will drive at or near the posted speed limits. Participants should keep up with the car in front of them at a safe but reasonably close distance, and advise everyone if they plan to leave the Awesome Tour for any side trips. If any participants desire to take a more leisurely drive or do not feel comfortable driving at speed, we request that they notify the tour leader at the next stop. They will already have directions of the tour and may follow behind the last car of the tour group. (Or, if more than one group, join the last group or follow behind the last car of that Awesome Tour group at their leisure.)
2. For one-day tours, notify the tour leader at least two days in advance of the tour start date your intent to or not to participate in the Awesome Tour. (You could be denied the tour if you do not advise the tour leader of your attendance, and another member on a “wait list” was notified to attend in your spot.)
3. It is the tour participants’ responsibility to insure that their guests have signed the LHSCG – “Guest Release Form” prior to their guest participating in the tour. The signed "Guest Release Form" must be given to the tour leader before the guest will be allowed to participate in that tour. The “Guest Release Form” is available from the Vice President (of Membership) at meetings, and / or can be printed out from our Web-site: **LHsportscars.com** under the heading of Membership / Application.

(The “Guest Release Form” is a stand alone form that is used only once per tour per guest. This form is turned in to the Vice President (of Membership) to be retained for 1 year.)
4. *If there is more than one group of cars leaving, each car should remain with their group at all times! If someone needs to change, they need to inform the Leader and Sweeper of their group that they will change. Also, they must inform the new Leader and Sweeper of the new group they are joining, to verify room within that Group. If you drive with your lights on (optional)... you are more easily seen by others.*
5. We use walkie-talkies to maintain contact between the lead and rear cars of each group. These radios have a short range; therefore, if groups spread out too much, we lose communications and must make extra stops to ensure no one is lost. (We usually stop to allow time for stragglers to catch up.)
6. The tour leader / co-leader will choose restaurant(s) and hotel(s) for the Awesome Tour as needed. If a participant does not choose to eat at the restaurant(s) or stay at the hotel(s) that are recommended, they should advise the tour leader as soon as possible and make their own arrangements.
