Co – Leaders: Need Volunteers

This will be a very scenic and leisurely drive through the Sierras North and East of Lincoln. At approximately 300 miles, it will be a full day event with adequate breaks (some historic) and lunch in Graeagle. The snow will be gone by mid July and since we will be traveling mid week, we should encounter very little traffic. It will be “tops down” weather for those of you with convertibles. We should return to Lincoln no later than 5 PM.
